

Clysar® HPG Confidential

Opaque Shrink Films to Conceal Confidential Products

Strong, lightweight and puncture-resistant, Clysar® HPG Confidential shrink film is a versatile white packaging film ideal for protecting and concealing high-value or sensitive confidential products.

Featuring the reliable performance of Clysar's best-selling HP Gold all-purpose film, HP Confidential is an excellent alternative to corrugate boxes, bundling materials and cloudy film overwraps.

Confidential Security: Clysar® HPG Confidential film is ideal for concealing a wide range of sensitive or valuable contents, while creating crisp, wrinkle-free packages. It offers the ultimate combination of privacy and appeal.

Tough Protection: Resistant to tears, punctures, UV light and abrasion, HPG Confidential film protects products at every step, from distribution and shipping to home delivery or retail display. No more rips, spills, breakage or surface damage.

Easy to Run: HPG Confidential film runs flawlessly on most manual, semi-automated or automated packaging equipment. It provides balanced shrink for excellent cleanup, and its wide sealing window ensures you'll achieve strong seals and total package integrity.

THE BEST OPACITY TO PROTECT & CONCEAL YOUR PRODUCT

150 Gauge (90% opacity) film hides contents for total privacy while blocking UV rays.

Clysar®

Wrap Up a Secure, Lightweight Packaging Alternative

Clysar® HPG Confidential shrink film is an ideal material to replace bulky corrugate boxes, slip sheets and cloudy overwraps used for packaging, bundling and mailing. Suitable for a wide range of applications, HPG Confidential film will allow you to enjoy significant source reduction, eliminating multiple packaging SKUs and excess material.

Ask your Clysar distributor about our breadth of ordering options, from roll sizes to printing to non-slip treatments.

CALL FOR YOUR FREE PACKAGING SAMPLE

Contact 888-4-CLYSAR
