

The Advantages of U.S.-Made Shrink Film for Supply Chain Resiliency

Clysar  Made in USA

Purchasing U.S.-manufactured packaging materials is an effective tactic to eliminate supply chain uncertainty. By choosing Clysar, a top-tier shrink film supplier with 100% U.S.-manufactured goods, you eliminate the costs and risks of production delays of offshore films, and maintain peak production output and capacity.

Protect Supply Reliability and Avoid Production Disruption

Clysar® shrink film is the only polyolefin film manufactured exclusively in the U.S. As a designated essential packaging supplier, Clysar offers a secure, reliable supply of shrink film with the capacity and flexibility to support business during times of challenge and change.

- Manufactured exclusively in our Clinton, Iowa, manufacturing campus, offering centralized North American service and expertise
- Utilizes domestically sourced resin, raw materials and essential components, with a streamlined, consistent supplier network
- Offers an agile manufacturing platform with collaborative capacity planning, inventory programs and flexible assets
- Meets high standards of film quality, consistency, safety and performance: ISO 9001:2015 certified, FSC 22000 certified and FDA/USDA approved

U.S.-Manufactured Shrink Film: The Choice Makes a Difference

Purchasing packaging supplies from a U.S.-based company not only offers economic benefits to your business, it supports American jobs and communities and contributes to our shared economic health.

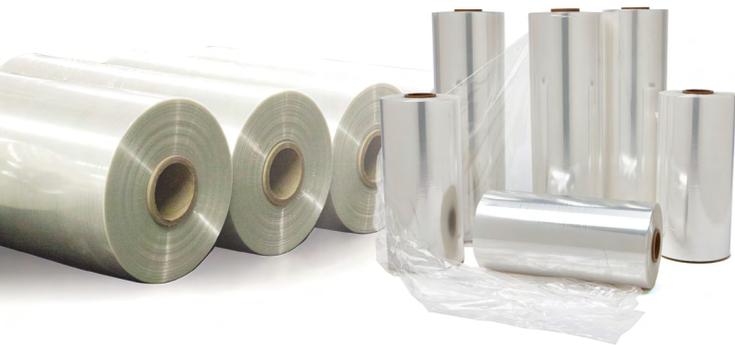

Business Benefits

- ✔ **Eliminates Offshore Risks**, including disruptions due to shipping restrictions and delays, labor and material shortages, communications lags and system instability
- ✔ **Shortens Lead Times** with simplified, centralized supply chain logistics
- ✔ **Reduces Hidden Costs** of imported materials such as taxes, custom fees, insurance and currency volatility
- ✔ **Improves Collaboration & Communication** with an ongoing flow of information, data and solutions to unexpected changes
- ✔ **Keeps Operations Running at Peak Capacity** by eliminating production delays, downtime and excess cost caused by material supply issues
- ✔ **Increases Manufacturing Flexibility** with agile, adaptive manufacturing capabilities to respond to changes in demand, distribution strategies or other impacts
- ✔ **Speeds Package Development** with R&D resources and application bench strength to quickly develop or retool packaging to improve protection, safety, sustainability and/or value

Social & Economic Benefits

- ✔ **Strengthens U.S. Jobs and Communities** by supporting the jobs of Clysar employees, distributor organizations and hundreds of supply partners, keeping dollars working in local communities, businesses and schools
- ✔ **Supports Ethically and Safely Produced Packaging**, creating demand for packaging that is manufactured with concern for worker well-being, safety and job stability, under highly regulated FDA, EPA and OSHA guidelines
- ✔ **Sustains Economic Stability**, allowing tax dollars to remain in the U.S.; supporting local and national government infrastructures and helping our economy and financial structures
- ✔ **Improves Sustainability**, lowering a material's overall carbon footprint by eliminating emissions from unregulated manufacturing, the greenhouse gases from ocean shipping and other supply impacts
- ✔ **Meets Demand for U.S.-Made Products**, a growing trend that drives consumer and retailer preferences and buying behavior
